DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED COMPETITIVE RATES (GOVERNORS' DECISION NO. 19-1)

February 7, 2019

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes new prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments.

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to make all necessary regulatory filings with the Postal

Regulatory C	ommission.		
		Mart - App	

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established prices that will enable each agreement to cover costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a semi-annual basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives, as specified in the accompanying Management Analysis. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

Attachment A to Postal Service Request and Notice PRC Docket Nos. MC2020-146 and CP2020-156

This Decision supersedes previous Governors' Decisions setting classifications and rates not of general applicability for competitive products; however, prices and classifications established under those Decisions may continue to be offered until the expiration of their terms, and contractual option periods and extension provisions that are included in the existing and future agreements can continue to be exercised.

ORDER

In accordance with the foregoing Decision of the Governors, the new prices and terms set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement or other nonpublished rate and classification initiative is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of any necessary review by the Postal Regulatory Commission.

Robert M. Duncan

Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivaler instruments (collectively, each "product") will be	nt
The cost coverage for a product equals	

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Priority Mail Express, Parcel Return Service, Parcel Select, First-Class Package Service, First Class Package International Service, Commercial ePacket Service, Priority Mail International, Priority Mail Express International, International Priority Airmail, International Surface Air Lift, Inbound Parcel Post, Inbound Direct Entry, and Inbound EMS services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. §3633(a)(3), which, as implemented by 39 C.F.R.§ 3015.7(c), requires competitive products to contribute a minimum percentage to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise from 39 U.S.C. §3633(a)(1).

The Postal Service shall submit a semi-annual report to the Governors. The report shall include information on the cost coverage for each agreement or initiative that has been executed under the authority of Governors' Decision 19-1. Agreements classified as non-published rates or rate ranges may be reported as a collective grouping; all other agreements or initiatives are to be reported separately. The report shall also include cost coverage information on any agreements and nonpublished initiatives established under previous numbered Governors' Decisions and Resolutions.

For each item mailed under this Agreement, the Mailer is responsible for notifying the Mailer's

customers of their responsibility for determining export and import requirements, obtaining any required licenses and permits, and ensuring that the recipient of the item is authorized by the laws of the United States as well as destination countries to receive the item, and for the exportation and importation status of the products mailed under this Agreement as detailed in IMM 112. (2) The Mailer is responsible for ensuring that no item mailed under this Agreement includes non-mailable dangerous goods. Internationally mailable dangerous goods include only certain biological substances, certain radioactive materials, and small lithium batteries packaged in the devices they are meant to operate, as described in greater detail in IMM 135. Hazardous materials listed within the Department of Transportation's regulations, including at 49 C.F.R. § 172.101, are known as dangerous goods that are prohibited from all international mail, as set forth in Exhibit 331 of USPS Publication 52. These substances and items are in addition to any prohibitions or restrictions on imports that may be found in the Individual Country Listings in the IMM. Penalties for knowingly mailing dangerous goods may include civil penalties pursuant to 39 U.S.C. § 3018 and criminal charges pursuant to 18 U.S.C. § 1716.

- 29. - 30. Conditions Precedent. any executive authority, branch, agency, or independent establishment of the United States Government. The USPS and the Mailer further acknowledge and agree that this Agreement in no way waives the USPS's authority to act in its sovereign capacity and that, pursuant to the sovereign acts doctrine, the USPS shall not be held liable for any acts performed in its sovereign capacity, or for any acts performed by any executive authority, branch, agency or independent establishment of the United States Government in their sovereign capacities that may directly or indirectly affect the terms of this Agreement. <u>Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback Contract 1</u>

Statement of Supporting Justification

- I, Frank Cebello, Manager, International Products & Major Accounts, am sponsoring this request that the Postal Regulatory Commission (Commission) add Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback Contract 1 to the list of competitive products. This statement supports the United States Postal Service's (Postal Service's) request by providing the information required by each applicable subsection of 39 C.F.R. § 3040.132. I attest to the accuracy of the information contained herein.
- (a) Demonstrate why the change is in accordance with the policies and applicable criteria of the Act.

As demonstrated below, the change complies with the applicable statutory provisions.

(b) Explain why, as to market dominant products, the change is not inconsistent with each requirement of 39 U.S.C. § 3622(d), and that it advances the objectives of 39 U.S.C. § 3622(b), taking into account the factors of 39 U.S.C. § 3622(c).

Not applicable. The Postal Service is proposing that this Priority Mail

Express International, Priority Mail International & Commercial ePacket Duty and

Tax Chargeback Contract 1 product be added to the competitive products list.

(c) Explain why, as to competitive products, the addition, deletion, or transfer will not result in the violation of any of the standards of 39 U.S.C. § 3633.

The service to be provided under the contract will cover its attributable costs and make a positive contribution to competitive products' ability collectively

to meet the required minimum contribution requirement under Section 3633(a)(3). The contract will increase contribution toward competitive products' currently required minimum contribution of the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products arises (39 U.S.C. § 3633(a)(1)).

(d) Verify that the change does not classify as competitive a product over which the Postal Service exercises sufficient market power that it can, without risk of losing a significant level of business to other firms offering similar products: (1) set the price of such product substantially above costs, (2) raise prices significantly; (3) decrease quality; or (4) decrease output.

The contract sets specific terms and conditions for providing to the customer Priority Mail Express International (PMEI), Priority Mail International (PMI), and Commercial ePacket (CeP) using the Duty and Tax Chargeback Program for destinations served by each respective product for which the Duty and Tax Chargeback Program is available (PMEI, PMI, and CEP Duty and Tax Chargeback). PMEI, PMI, and CeP Duty and Tax Chargeback are provided in a highly competitive market. The Postal Service is unable to set prices substantially above costs, raise prices significantly, decrease quality, or decrease output, without losing this business to private competitors in the expedited shipping market.

In negotiating this contract, the Postal Service's bargaining position was constrained by the existence of other providers of services similar to the Postal Service's. As such, the market precludes the Postal Service from taking unilateral action to increase prices or decrease service. The Postal Service may not decrease quality or output without risking the loss of business to competitors

that offer similar delivery services. The market does not allow the Postal Service to raise prices or offer prices substantially above costs; rather, the contract is premised on prices and terms that provide sufficient incentive for the customer to ship with the Postal Service rather than a competitor.

(e) Explain whether or not each product that is the subject of the request is covered by the postal monopoly as reserved to the Postal Service under 18 U.S.C. § 1696, subject to the exceptions set forth in 39 U.S.C. § 601.

PMEI, PMI, and CeP Duty and Tax Chargeback are products intended primarily for merchandise, and any letters contained in these items would be covered by one or more exceptions or suspensions to the Private Express Statutes.

(f) Provide a description of the availability and nature of enterprises in the private sector engaged in the delivery of the product.

See part (d) above. Shipping, similar to PMEI, PMEI, and CeP Duty and Tax Chargeback is widely available from well-known and successful private firms at both published and contract prices.

(g) Provide any available information on the views of those who use the product on the appropriateness of the proposed modification.

We naturally expect that the customer would support the addition of the contract to the product list so that the contractual terms can be effectuated.

(h) Provide a description of the likely impact of the proposed modification on small business concerns.

The market for similar delivery services is highly competitive and requires substantial infrastructure to support a national network. Large shipping

companies serve this market. The Postal Service is unaware of any small business concerns that could offer comparable service for this customer.

(i) Include such other information, data, and such statements of reasons and bases, as are necessary and appropriate to fully inform the Commission of the nature, scope, significance, and impact of the proposed modification.

Additional details regarding the terms of the contract have been provided to the Commission under seal due to the sensitivity of the contract to both the customer and the Postal Service.

Certification of Prices for Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback Contract 1

I, Nan K. McKenzie, Manager, Pricing Innovation, Finance Department, United States Postal Service, am familiar with the prices and terms for Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback Contract 1. The prices and terms contained in this contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, adopted February 7, 2019 (Governors' Decision No. 19-1).

I hereby certify, based on the financial analysis provided herewith, that the prices are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). They are expected to cover attributable costs. There should therefore be no subsidization of competitive products by market dominant products. This contract should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3011, the United States Postal Service (Postal Service) hereby applies for non-public treatment of the unredacted Governors' Decision, the unredacted Priority Mail Express International, Priority Mail International & Commercial ePacket & Duty and Tax Chargeback contract, and the supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3035.105. The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3011.201(b), as enumerated below.

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.

The materials designed as non-public consist of information of a commercial nature, which under good business practice would not be publicly disclosed. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3), (b)(4).¹ Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support the Postal Service's determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

Information of a commercial nature, which under good business practice would

¹ In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g) (3) (A).

not be publicly disclosed, as well as third party business information, are not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.³

In the case of this Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback contract, the Postal Service believes

² The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ Section 3007.201(b)(2) further states the following:

⁽i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the Materials.

⁽ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

⁽iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

that the parties with a proprietary interest in the materials would be the counterparty to the contract, the PC Postage Provider(s) (if the contract allows for and the customer intends to use a PC Postage Provider), and foreign postal operators.

The Postal Service believes that the customer with whom the contract is made has a proprietary interest in the non-public materials and customer-identifying information should be withheld from public disclosure. Therefore, in compliance with 39 C.F.R. § 3011.200(b), rather than identifying the customer, the Postal Service gives notice that it has already informed the customer,⁴ and the PC Postage Provider (if applicable),⁵ that have a proprietary interest in the materials for the contract that is the subject of this docket of the nature and scope of this filing and their ability to address their confidentiality concerns directly with the Commission.

The Postal Service employee responsible for providing notice to the customer with proprietary interest in the materials filed in this docket is Ms. Amy E. Douvlos, Marketing Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5427, Washington, DC 20260-4017, whose email address is Amy.E.Douvlos@usps.gov, and whose telephone number is 202-268-3777.

As for foreign postal operators, the Postal Service recently provided notice to all foreign postal operators within the Universal Postal Union network through an International Bureau Circular issued on December 9, 2019, that the Postal Service will be regularly submitting certain business information to the Commission. Some UPU-

⁴ The Postal Service informed the customer for the contract prior to filing a notice that the Postal Service would be seeking non-public treatment of the redacted portions of the contract. The Postal Service also informed the customer for the contract that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3011.204.

⁵ The Postal Service has provided a blanket notice to PC Postage Providers in light of the fact that these fillings are fairly routine. To the extent required, the Postal Service seeks a waiver from having to provide each PC Postage Provider notice of this docket.

designated foreign postal operators may have a proprietary interest in such information. The circular includes information on how third parties may address any confidentiality concerns with the Commission. In addition, contact information for all UPU Designated Operators is available at the following link, which is incorporated by reference into the instant application: http://pls.upu.int/pls/ap/addr_public.display_addr?p_language=AN.6

(3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.

The Governors' Decision establishing International Competitive contracts, including those for Priority Mail Express International, Priority Mail International & Commercial ePacket Duty and Tax Chargeback, the contract identifying the customer and containing the prices, terms, and conditions of the contract, and the financial workpapers supporting the contract are being filed under seal in this docket. Redacted copies of the Governors' Decision and the contract are being filed publicly in this docket. The Postal Service maintains that the redacted portions of the Governors' Decision, the contract, name of the customer and related information should remain confidential.

With regard to the contract, the redactions are of the name, address, signature block, and other information that could identify the customer, such identifying information of a postal patron may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c). The additional redactions to the agreement protect information with specific impact on the customer, including the minimum commitment to the Postal Service and the timing and manner in which the

⁶ To the extent required, the Postal Service seeks a waiver from having to provide each foreign postal operator notice of this docket. It is impractical to communicate with dozens of operators in multiple languages about this matter. Moreover, the volume of contracts would overwhelm both the Postal Service and the applicable foreign postal operators with boilerplate notices.

Postal Service might change prices under the contract. In addition, certain terms and the prices in the annexes of the agreement are redacted.

The redacted portions of the Governors' Decision and attached Analysis protect the costs authorizing International Competitive contracts, and the analysis of those costs.

The redactions applied to the financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the mailing profile of the customer, business information of interested third parties, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages or notes were redacted in their entirety due to the practical difficulties of redacting particular words or numbers within the text as presented in a spreadsheet format, or certain words or numbers in text were replaced with general terms describing the redacted material.

To the extent that the Postal Service files data in future filings that will show the actual revenue and cost coverage of the customer's completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any information that identifies the customer from disclosure.

(4) Particular identification of the nature and extent of the harm alleged and the likelihood of each alleged harm alleged to result from disclosure.

If the redacted information were to be disclosed publicly, the Postal Service considers that it is quite likely that it and the customer would suffer commercial harm.

The information is commercial sensitive, and the Postal Service does not believe that it would be disclosed under good business practices.

Revealing this information would provide a competitive advantage to competitors of the Postal Service and of the customer. The Postal Service considers that it is highly probable that if this information were made public, such entities would take immediate advantage of it and there is a substantial risk that the Postal Service and the customer would lose business as a result. Additionally, other postal customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service and other businesses could use the information to the information to their advantage in negotiating with the customer. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial workpapers include specific information such as costs, negotiated prices and pricing structure, assumptions used in developing costs and prices, business information of foreign postal operators, mailer profile information, and projections of variables. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's and the customer's competitors would likely take great advantage of this information. Unlike its competitors, the Postal Service is required to meet the standards of 39 U.S.C. § 3633 with each negotiated agreement that it asks to have added to the competitive products list. Competitors are not so constrained and could use the redacted information to their advantage in gaining customers. The formulas shown in the spreadsheets in their native format provide

additional sensitive information. Revealing the Postal Service's profit margin information could also be used by the customer to attempt to renegotiate its own prices.

Information in the financial spreadsheets and any cost, volume and revenue data concerning this agreement filed after the expiration of this contract also consists of sensitive commercial information related to agreements between the Postal Service and interested third parties. Such information would be extremely valuable to competitors of both the Postal Service and third parties. Using detailed information about such agreements, competitors would be able to better understand the counterparty's underlying costs, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the counterparty could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service. And competitors of foreign postal operators could use the information in the financial spreadsheets to understand their nonpublished pricing to better compete against them.

Information in the financial models may also include sensitive commercial information related to agreements between the Postal Service and PC Postage Providers. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Providers. Using detailed information about such an agreement, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Providers could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

(5) At least one specific hypothetical, illustrative example of each alleged harm.

Identified harm: Revealing information that identifies the customer would enable competitors to target the customers for sales and marketing purposes.

Hypothetical: The identity of the customer in this contract is revealed to the public. A competitor's sales representatives contact the Postal Service's customer and offer the customer lower rates or other incentives, taking away the business anticipated by the Postal Service.

Identified harm: Public disclosure of negotiated terms of the agreement could be used by competitors and potential customers to the detriment of the Postal Service and its customer.

Hypothetical: A competitor obtains a copy of the unredacted version of Customer A's contract and workpapers to the detriment of the Postal Service's customer.

Company B discovers proprietary business strategies and changes its business practices to minimize differentiation, identify their key customer base and cause defection of Customer A's customers. Customer A cancels the contract and withdraws their business from the Postal Service. Other companies would then refuse to share critical details of their business or to participate in negotiated prices with the Postal Service, harming the Postal Service's ability to compete in the marketplace for additional volume and revenue.

Also, the competitor could leverage multiple services to offer deeper discounts than provided by the Postal Service's contract as a loss leader, using profits on other products profits to make up for the temporary loss.

Identified harm: Public disclosure of the price formula, underlying cost structure,

and information in the financial workpapers relating to the contract would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing package delivery service or its representative obtains a copy of the unredacted version of the financial workpapers. It analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet its minimum statutory obligations for cost coverage and contribution to institutional costs. The competing package delivery service then sets its own rates for products similar to what the Postal Service offers its customers under that threshold and markets its ability to guarantee to beat the Postal Service on price for similar delivery services.

Identified harm: Public disclosure of the prices and related terms would provide potential customers extraordinary negotiating power.

Hypothetical: Customer B obtains the contract showing Customer A's negotiated prices and the underlying workpapers. Customer B can determine that there is additional profit margin between the prices provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Although Customer B was offered prices identical to Customer A's, Customer B uses the publicly available information to insist that unless the Postal Service offers Customer B even lower prices than Customer A's, Customer B will not use the Postal Service but will give its business to a competitor of the Postal Service.

Alternatively, Customer B attempts to negotiate lower rates only for those destinations for which it believes the Postal Service is the low-cost provider among all

service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which it believes will still satisfy total cost coverage for the agreement. Then, Customer B uses other providers for destinations other than those for which it negotiated lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement. Although the Postal Service can terminate the contract when it sees that the mailer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on postal finances.

Identified harm: Public disclosure of the information in the contract and the financial workpapers would be used by the customer's competitors to its detriment.

Hypothetical: A business in competition with the customer obtains a copy of the unredacted version of the financial workpapers. The customer's competitor analyzes the workpapers to assess the customer's underlying shipping costs. The customer's competitor uses that information as a baseline to negotiate with shipping companies and other suppliers to develop lower-cost alternatives and thereby to undercut the customer.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the competitors of a foreign postal operator to the detriment of the Postal Service, the counterparty to the agreement and/or the foreign postal operator.

Hypothetical: A firm competing with a foreign postal operator obtains a copy of the unredacted version of the contract and financial workpapers from the Commission's website. The firm uses the information to assess the business information concerning the foreign postal operator in the contract and financial workpapers, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other parties in their negotiations with the Postal Service concerning financial arrangements that they may make with the Postal Service in the future.

Identified harm: Public disclosure of any cost, volume and revenue data concerning the agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after the contract's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information filed after the contract's expiration to determine whether a customer met that profile.

Identified harm: Public disclosure of information in any contract involving postage payment through a PC Postage Provider, and of related information in financial workpapers for that contract, would be used by the competitors of the PC Postage Provider to the Postal Service and/or the PC Postage Provider's detriment.

Hypothetical: A firm competing with the customer's PC Postage Provider (if applicable) obtains a copy of the unredacted version of a contract involving postage payment through a PC Postage Provider, and financial workpapers, from the Commission's website. The firm uses the information to assess the PC Postage

Provider's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

(6) The extent of the protection from public disclosure alleged to be necessary.

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for parcel and expedited services, as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with customers often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

(8) Any other relevant factors or reasons to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
